WATER & POWER TECHNOLOGIES'

# SERVICE DEIONIZATION

**SERVICE DEIONIZATION THAT MEETS OUR CUSTOMERS' QUALITY AND QUANTITY NEEDS, UTILIZING THE LATEST TECHNOLOGIES FOR QUICK RESPONSE AND RELIABLE SERVICE.**

**WATER & POWER TECHNOLOGIES (WPT)** is a full-service provider for your **service deionization** needs. With over 35 years experience, we provide **reliable service 24 hours per day**.

With our strategically located service facilities, we can provide quick **economical service**.

WPT offers a **complete range of DI systems** for laboratory to process water in manufacturing.

Our **trained service technicians** are experienced in all areas of water purification.

WATER & POWER TECHNOLOGIES (WPT) has a **world-class safety program**. Safety is top priority in everything we do.

**Simplify** the ordering process by making only one call. You will be assisted by friendly, knowledgeable representatives and will have the full support of industry experts.

**FOCUS ON YOUR BUSINESS, WHILE WE FOCUS ON OURS—LET WPT PRODUCE THE QUALITY AND QUANTITY OF WATER THAT YOU NEED SAFELY AND RELIABLY.**

Maintain your **safety** record by partnering with WPT. Through our world-class safety program, WPT is focused on achieving zero safety and environmental incidents. When you contract with us you will be assured that your OSHA 300 logs will not be impacted by the production of water at your facility.

WPT handles all of the **human resources** requirements for the production of water to meet our customer's needs. We provide all the required experience, skills, and training.

WPT strives for 100% **customer satisfaction** utilizing a formal performance communication program with our customers. This formal process facilitates a better understanding of our customer's needs so, as a partner, WPT is better aligned with our customer's goals.
