WaterPRO™
INDUSTRIAL WATER OUTSOURCING

WATER-BY-THE-GALLON THAT MEETS OUR CUSTOMERS' QUALITY AND QUANTITY NEEDS UTILIZING EITHER SITE-INSTALLED EQUIPMENT OR WPT'S MobilePRO™ TRAILER SYSTEMS

Requires **no capital expenditure** – WPT bears the burden of the capital expenditure so you don't have to.

Complete modular systems – WPT knows that installation time can be critical. This is one reason WPT offers modular systems that include trailer mounted equipment or modular prefabricated buildings with pre-installed equipment that can be installed and started up in days.

Customized agreements are developed to meet our customer's specific needs. Whether your pure water production requirement is a few months or many years we work with you to develop a tailored contract to fit what you need.

A wide range of **process technologies** – WPT provides the complete package from clarification, filtration, membrane systems, to ion exchange and much more. The required unit operation is customized to your process requirements.

Green solutions – WPT provides engineered process solutions to minimize the environmental impact of producing purified water at your locations.

Professional **preventive maintenance** – WPT understands the importance of reliability and system availability. This is why we developed and implemented a comprehensive preventive maintenance program that ensures the quality and quantity of water our customers need and expect.

FOCUS ON YOUR BUSINESS, WHILE WE FOCUS ON OURS—LET WPT PRODUCE THE QUALITY AND QUANTITY OF WATER THAT YOU NEED SAFELY AND RELIABLY.

Maintain your **safety** record by partnering with WPT. Through our world-class safety program, WPT is focused on achieving zero safety and environmental incidents. When you contract with us you will be assured that your OSHA 300 logs will not be impacted by the production of water at your facility.

WPT handles all of the **human resources** requirements for the production of water to meet our customer's needs. We provide all the required experience, skills, and training.

WPT strives for 100% **customer satisfaction** utilizing a formal performance communication program with our customers. This formal process facilitates a better understanding of our customer's needs so, as a partner, WPT is better aligned with our customer's goals.

If a problem occurs, we know response time is critical. WPT utilizes **remote monitoring and response** technology that is unmatched in the industry. This allows WPT to not only immediately dispatch the most qualified personnel but can also resolve many of the production issues remotely, shortening response time to maximize production time.
